DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/26/2006 has been entered.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

3. It should be noted that in the Amendment filed on 4/26/2006, the Applicants has indicated that in Figure 2, "ARTCAM CENTRAL PROCESSOR (ACP)" has been changed to "ARTCARD PROCESSOR 2." However, this change has not been made.

Therefore, the following changes to the drawings have been approved by the examiner and agreed upon by applicants as indicated in Amendment filed on 4/26/2006.

Art Unit: 2622

In replacement sheet 2/2, FIG. 2, "ARTCAM CENTRAL PROCESSOR 2" has been changed to --ARTCARD PROCESSOR 2--.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Allowable Subject Matter

4. Claims 6-8 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding claim 6, the prior art of the record fails to show or fairly suggest a camera system for outputting deblurred still images, said system comprising a linear image sensor for sensing data provided on at least one encoded card inserted into the camera system, the at least one encoded card containing instructions for the manipulation of the blurred images; and a processor adapted to receive said blurred image from said image sensor and said velocity output from said velocity detector and to process said blurred image under programmed control determined from data sensed by the linear image sensor from the at least one encoded card, in combination to other claim elements.

Claims 7-8 are allowable for the reasons given in claim 6.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2622
